

My favorite Season

My favorite season is fall. I like fall because I love going outside, holidays and when leaves change color.

In fall I love going outside and the weather is really enjoyable. Of course when it's cool boots are the right way to go! I can wear jackets, sweat shirts and long sleeve shirts. You can also do bon fires and smores. I think you will love cool weather too.

I also love holidays! Who wouldn't! I love Halloween. I love to go trick or treating with friends. Also Thanksgiving is great! I love to have a feast. I even have my birthday in fall. I get so excited.

I love when the leaves change color. I think it's a beautiful sight. Leaves can change

to red, orange, yellow. I also love to see animals in fall like squirrels, birds, and deer. I love animals in fall. Fall is on ticket away from heat and summer. I hate to have to sweat. I finally get to have a cool day. That means that the day will have a chill almost every day. And I LOVE getting away from heat.

I love fall because of cooler weather, holidays, and leaves changing color. I hope you enjoy fall too.

Sydney Anderson, 4th Grade, Mrs. Bruner's Homeroom, JCT

She chose a piece about her favorite season. "I like this writing piece because I included a lot of describing words and phrases and I wrote about my feelings."
