Students return to class following bus accident

Thankfully Pike Middle School students have returned to class following a bus accident in front of Northwest High School on F.M. 156 this morning when a car collided into the bus. Middle school students on bus number 685 were each evaluated by medics on the scene. The district is grateful to report no major injuries occurred, and all students and the bus driver are safe. Two students were transported for precautionary measures.

Parents at Gene Pike Middle School and Northwest High School were notified of the accident as traffic was blocked on F.M. 156 for at least an hour or so. NISD is appreciative of the partnership with local responders. Media inquiries regarding the accident should be directed to Emily Conklin, Northwest ISD director of communications, by phone to 940-535-8010.
